Professional Experience

Sonos

Senior Training Manager, Customer Experience

Boston, MA
02/2020 – 03/2026

- Established and grew the Customer Experience (CX) training organization by recruiting and developing a global team of six, and implementing standardized course development methodologies and tools.
- Defined the course development lifecycle through the integration of instructional design standards, generative AI, storyboard templates, project management software, and comprehensive documentation.
- Cultivated strong relationships with partners and internal stakeholders to effectively identify, intake, and address evolving training requirements. Formulated and executed a strategic training roadmap and overarching strategy.
- Spearheaded global onboarding program redesign, cutting duration from six to four weeks and driving 20% performance improvement by prioritizing practical knowledge and skill application.
- Designed learning experiences, including certification programs and new product training for a global audience of ranging from 400 - 800, through close collaboration with engineers and subject matter experts (SMEs).
- Assessed the efficacy of training programs through detailed survey analysis and audits conducted by the Quality Assurance (QA) team.
- Instituted a standardized framework for the development of technical certifications, incorporating assessment and auditing protocols to measure business impact.
- Defined requirements for a new Learning Management System (LMS) to support company-wide training delivery and tracking needs, subsequently leading the vendor selection process.

Biogen

Training Manager, R&D Learning

Cambridge, MA
07/2019 – 02/2020

- Orchestrated a large-scale project to integrate an acquired company into the R&D training framework, encompassing the creation of role-based curriculums and the migration of training records.
- Oversaw training development vendors, ensuring the delivery of high-quality, effective training solutions and adherence to project timelines.
- Facilitated training requests for R&D audits and inspections by generating reports from the SuccessFactors LMS.

Akamai Technologies

Senior Documentation and Training Specialist → Training Manager

Cambridge, MA
05/2013 - 06/2019

- Managed the Global Performance Operations training team, overseeing the design and development of comprehensive learning programs.
- Ascertained training needs and prioritized projects through consistent engagement with departmental stakeholders.
- Transformed complex technical content into learner-centric, blended learning curriculums that facilitated efficient troubleshooting workflows and standardized ticketing and operational procedures.
- Conducted instructor-led training sessions for senior engineers, promoting the adoption of new systems, processes, and tools.
- Devised and facilitated interactive learning games designed to enhance technical problem-solving skills and foster cross-location collaboration.
- Led a significant project to migrate over one hundred courses and associated completion data from an open-source LMS to Cornerstone, achieving an efficiency saving equivalent to over half a full-time employee.
- Championed a project to streamline and standardize a blended learning onboarding program across multiple Network Operations Command Center (NOCC) locations, resulting in a three-week reduction in training duration. Instituted a standardized course production process, including the selection of appropriate software and templates, to structure and optimize workflow efficiency.
- Quantified program effectiveness by analyzing survey and assessment results.

Self-employed

Freelance Instructional Designer

Cambridge, MA
11/2012 - 05/2013**America's Test Kitchen**

Instructional Designer

Brookline, MA
01/2011 - 11/2012

- Pioneered instructional design for a cutting-edge online cooking school that has enrolled thousands of students.
- Developed curriculum in close partnership with the Editorial Director, synthesizing and editing content from print sources, writing curriculum, drafting assessment questions, and designing the interactive learning experience.
- Authored website copy and managed the production of over one hundred courses, coordinating with external departments for on-time asset delivery and supervising copywriter assistants.
- Contributed to the foundational design of a custom course authoring system and LMS by collaborating closely with developers to define features and resolve technical challenges.

CDM Smith

Senior Training Specialist

Cambridge, MA
03/2008 -12/2010

- Collaborated with engineers to architect and develop online training modules.

Iron Mountain

eLearning Instructional Designer

Boston, MA
06/2007 -03/2008
